LOS ANGELES / DARK ALTERNATIVE - INDUSTRIAL - ROCK

VOIDOVA / 2026

WHAT IF NINE INCH NAILS AND NIRVANA WENT TO THE OPERA?

Voidova is the music project of MT Letsinger, a Los Angeles artist working where alternative rock, industrial texture, melody and cinematic atmosphere collide. The songs move between aggression and vulnerability without losing the human center.

THE RECORD

I write music to better understand my own life. Overcast is the most honest record I've ever made. These songs explore relationships in all their forms...with the people we love, the people we lose, the person staring back at us in the mirror, and the hope that somehow survives through it all. My hope is that this record makes you feel a little less alone.
